SUBJECT: National Defense Stockpile Goals Review

Attached are copies of draft reports on Political Reliability (TAB A) and Minerals Supply and Consumption (TAB B), for the minor materials and supplier nations, and the Materials Demand report (TAB C). Please provide one set of comments on these reports under the signature of an Assistant Secretary-level official to the NSC by four working days from the date of this memorandum.

2

The Political Reliability report rates several remaining countries that were not considered in earlier reports.

The Minerals Supply report covers 33 minor minerals or manufactured items, some of which--due to data limitations, specialized defense requirements or changes in industrial technology--may not be appropriate for computation of goals by the procedures adopted for the other minerals and materials. We would appreciate the views of your agency on which minerals may possess unique characteristics. In addition, there may be additional materials which your agency believes should be studied for possible inclusion in the stockpile, and these should be brought to the attention of the Steering Group.

The Steering Group will meet at 3:00 p.m. on Tuesday, November 13, in Room 208 of the Old Executive Office Building. Please provide the name of your agency's representative to Cathy Connolly on 395-7350 by 4:00 p.m. on Friday, November 9, so that we can arrange clearance into the building.

  
Robert M. Kimmitt  
Executive Secretary
